Delivering Excellence, One Smile at a Time

**Precision. Strength. Aesthetics.
All in One Solution.**

Product Overview

The Screw-Retained Implant crown is the perfect solution for modern dental restorations, combining advanced technology with premium materials to deliver reliable, natural-looking results. Designed to optimize performance and aesthetics, it provides both dentists and patients with a superior alternative to traditional cemented crowns.

Key Features & Benefits

1. Secure Fit & Easy Maintenance

- ✔ **Screw-Retained Design:** Ensures a stable and secure connection between the crown and the implant, eliminating the need for dental cement.
- ✔ **Convenient Access:** Facilitates removal and adjustments without compromising the restoration, simplifying maintenance and hygiene.

2. Natural Aesthetics

- ✔ **High-Strength Zirconia:** Resistant to chipping and fractures, even under heavy bite forces.
- ✔ **Corrosion-Resistant Components:** Engineered for long-lasting performance and wear resistance.

3. Bio-Compatibility

- ✔ **Gentle on Soft Tissue:** Zirconia is non-reactive and hypoallergenic, ensuring patient comfort and promoting healthy gums.
- ✔ **Metal-Free Composition:** Ideal for patients with metal allergies or sensitivities.

4. Precision Engineering

- ✔ **Wear Custom Abutment Integration:** Tailored to each patient's unique anatomy for optimal fit, function, and comfort.
- ✔ **Streamlined Workflow:** Designed to reduce chairtime while ensuring consistent, predictable results.

Applications

- ✔ Single-tooth replacements
- ✔ Implant-supported restorations in anterior and posterior zones
- ✔ Cases requiring retrievability for future adjustments

Why Choose Multi-Layered Zirconia?

- ✔ **Patient Satisfaction:** Delivers unparalleled strength, aesthetics, and comfort.
- ✔ **Clinician Convenience:** Easy to place, remove, and maintain, streamlining the restorative process.
- ✔ **Reliable Outcomes:** Engineered to last, providing peace of mind for both the dentist and the patient.

Technical Specifications

Flexural Strength	Up to 1,200 MPa
Translucency	43%-49% (varies by layer)
Shading System	Multi-shade gradients for seamless blending

Elevate Your Practice with Cutting-Edge Restorations

Transform smiles with the unmatched quality and performance of Screw-Retained Implant crowns. Deliver the perfect combination of form and function for your patients today!
